Amendments to the Specification

Lines 23-25 on page 9 of the Specification have been amended to read as follows:

Figures 4a and 4b illustrates one embodiment of the electromagnetically induced mechanical cutter of the present invention;

The following has been inserted as the first paragraph of the Specification:

PRIORITY INFORMATION

This application is a continuation of U.S. Application No. 08/985,563, filed December 5, 1997 and entitled METHODS OF USING ATOMIZED PARTICLES FOR ELECTROMAGNETICALLY INDUCED CUTTING (now U.S. Patent No. 6,610,053), which is a divisional application of U.S. Application No 08/522,503, filed August 31, 1995 and entitled ATOMIZED FLUID PARTICLES FOR ELECTROMAGNETICALLY INDUCED CUTTING (now U.S. Patent No. 5,741,247), the contents of both which are expressly incorporated herein by reference.
